

DATARITHM

Our MISSION

We develop highly specialized systems and software applications designed to help pharmacies streamline tasks, reduce inventory, and improve profitability and customer service.

CURRENT METHODS OF INVENTORY MANAGEMENT
RELY HEAVILY ON TECHS AND RPH'S

IT'S AN *Impossible* JOB!

THOUSANDS OF NDC'S IN EACH LOCATION
12 MONTHS/YEAR
ITEMS ARE CONSTANTLY GOING GENERIC
EVER-CHANGING SCRIPTING PATTERNS

We EFFECTIVELY

RETURN THE MANAGEMENT OF INVENTORY BACK TO MANAGEMENT

...AND

- Optimize Rx inventories via automated demand forecasting and inventory balancing (Store-to-Store transfer)
- Maximize Customer Service by improving fill-rates
- Flag diversion and maintain precise inventory counts through configurable cycle counting.

It's **EASY** to convert cash to inventory ...

The challenge is to convert inventory into **CASH.**

DATARITHM™

INVENTORY CONTROLLED
