

AUTOMATION | A MOTIVATED WORKFORCE

At the end-of-the-day, what matters to your pharmacy? Automation provides benefits immediately by providing: increased accuracy, improved patient safety, better patient care, increased productivity, and traceability through reporting.

The DOSIS L60's simplicity makes it easy for ALL of your staff to be productive with an L60 in your pharmacy.

DOSIS® L60 has increased the volume capacity for its 30 or 31-Day single medication blister cards (a.k.a. bingo-cards) by more than 25 percent. DOSIS now holds 325 empty blisters in its empty storage area giving you greater throughput for after hours filling.

Unlike any other automation.
On-Demand • Prepack • Calendar
Daily • Cycle • 7-Day • 14-Day • 30-Day
or any number from 1-31

THE POWER OF AUTOMATION.
MADE SIMPLE.
