

# MAZERUSTAR®

## JUST WHEN YOU THOUGHT WE HAD ASCENDED TO THE PEAK OF MIXING TECHNOLOGY FOR COMPOUNDERS

### 1 MIXING

Mixing has never been easier! The Mazerustar enables you to create completely homogenized and uniform formulations in a matter of seconds.

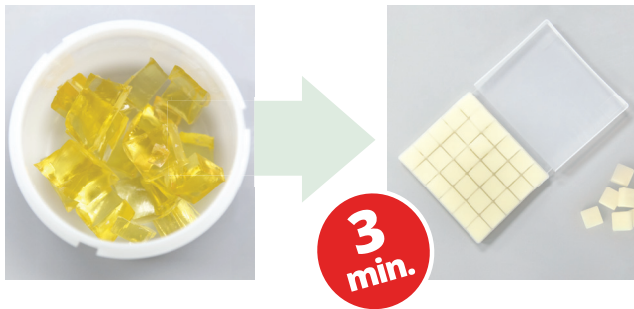

### 2 DEAERATION

With the built-in vacuum-like capability of the Mazerustar, air entrapment will no longer be a concern in your preparations. No other machine can mix and deaerate at the same time making the Mazerustar the first of its kind on the market!

### 3 NEW! MELTING

Reduce preparation times of troche and chewy treat formulations. The Mazerustar offers a simplified and more efficient way to melt gelatin gum base.

### 4 NEW! MILLING

Triturate no more with the use of milling media. Transform powders into ultra-fine particles in 60 seconds with just a click of a button! NaCl powder from 351 µm to 8.2 µm.
