

Two layers of protection. One smart packaging system.

SmartPak® is the new standard for large volume sterile product preparation. With a revolutionary dual bag design, each SmartPak® bag contains up to 300 grams of drug. SmartPak® has been proven as a cost-effective and safe packaging system for over 10 years. It saves time by eliminating the usual steps associated with reconstituting multiple 10 gram vials — and offers a sterile, reliable packaging system for large volume sterile product preparation that helps your operation run more efficiently.

Smart thinking.

SMARTPAK®

The innovative, easy-to-use packaging system ideal for large volume sterile product preparation.
