Company Background

Lexicomp is a leading provider of medical information and clinical content solutions for the healthcare industry. Lexicomp's content and technology provide relevant, real-time information at the point-of-care in both in-patient and out-patient settings to help improve patient outcomes, workflow efficiency, and medication safety. Along with its leading drug database, Lexi-Drugs®, content areas include pediatric drug information, pharmacology, interactions, diagnostic procedures and laboratory tests, pharmacogenomics, poisoning and toxicology, infectious diseases, and patient education. Over 500,000 clinicians worldwide access Lexicomp's information via the Internet, handheld devices, and through integration with health information systems.

Product Overview

See why more retail pharmacists are switching to Lexicomp Online for Community Pharmacy for their drug information reference. Our Internet-based platform delivers trusted, real-time drug information on an easy-to-use interface that enhances medication decisions and improves patient care. This cost-effective resource is designed to provide answers quickly and efficiently, providing pharmacists with the most current drug information available anywhere.

Testimonials

"Lexi-Comp was able to provide us with the best overall value in terms of price, ease-of-use and quality of content."

Jason Haire
