

Verity

SOLUTIONS

*We strive to
go the extra mile*

Verity delivers award winning 340B Solutions. Our goal is to exceed our customers' expectations. That's why we provide a multi-layered approach to service, where your business is assigned to a primary account manager as part of an account team. Our 340B experts not only help you maximize your 340B savings, they also conduct scheduled, formalized business reviews to assist in keeping your program on track. Our Account Management teams are also comprised of Pharmacy Program Analysts who provide deeper on-demand analytics to help improve your 340B program. Finally, our Support Team is available by phone, email or through our online customer community portal with 80% of all support cases resolved (not just responded to) in under 2-hours.

Contact us today to learn more about our 340B solutions and how we are continuously improving our service and support programs.
