Retail Management Solutions (RMS) is the industry leader in pharmacy point-of-sale technology and is QIR certified to ensure a properly installed POS solution.

Why is this important to you? With the frequency of credit card fraud and attacks happening these days, you need to ensure your point-of-sale technology is installed by a solutions provider that is authorized to implement, configure, and support a validated PA-DSS Payment Application.

“The quality, reliability, and consistency of a QIR Company’s work provide confidence that the Payment Application has been implemented in a manner that supports the Customer’s PCI DSS compliance.” – *PCI Security Standards Council*
