

i.Lock™ Interlock Technology

Protecting temperature sensitive pharmaceuticals

Designed for use in pharmacy clean rooms with USP<797> compliance in mind.

Doors on one side of the pass-through cabinet electronically lock when doors on the opposite side are opened.

Available on i.Series iPR225 and iPR456 pass-thru refrigerators.

Meet compliance, maintain clean room air quality, and enhance pharmacy workflow with i.Lock™ Interlock Technology.
