

The game just changed.  
**We see your next move.**

“

Pharmacists have long differentiated themselves with patients by stepping up to help with the confusion around managing multiple medications and monitoring health issues.”

Rebecca W. Chater,  
RPh, MPH, FAPhA

## **It is time to act. How are you keeping patients loyal to your pharmacy?**

Patient care is more than just filling prescriptions.

The pharmacist will play an even more critical role.

Now is the time for pharmacies to differentiate themselves by offering enhanced patient care services. Only Omnicell has a full suite of adherence solutions that help pharmacies grow business and improve patient outcomes.
