

Spotlight on Vitamin B₁₂

Current research indicates an increased need for supplementing Vitamin B-12. Our leading edge delivery system results in immediate absorption.

A Vital Concept for B-12 Supplementation

- Avoids loss of potency in the high acid environment of the stomach
- Perfect for vegetarians who may not get sufficient B-12 from plant based foods
- Bypasses the need for intrinsic factor which decreases with age
- Almost 40% of Americans are running low on B-12¹

MicroLingual[®] delivery is key for those seeking efficient absorption

Absorbed under the tongue, Superior Source MicroLingual[®] vitamins pass directly into the body. This is a vital concept for vitamin B-12 supplementation.² Formed with proprietary Low Pressure Hydromolecular (LPH) technology, the soft-molded tablet contains far fewer non-nutritive fillers or non-active ingredients. Only Continental Vitamin Company, the manufacturer of Superior Source products, provides a true MicroLingual[®] Instant Release soft-molded tablet for immediate delivery of vitamin B-12.

1. An Investigation of Coronary Heart Disease in Families: The Framingham Offspring Study; Ongoing study; Oversight by USDA Human Nutrition Research on Aging at Tufts University; Boston, MA.

2. Georges Delpre MD; Pinhas Stark, MD; Yaron Niv, MD. Sublingual therapy for cobalim (B12) deficiency as an alternative to oral and parenteral cobalim supplementation. The Lancet. 1999, Aug 28;354: 740-741.

Compare Superior Source, Soft Molded MicroLingual[®] Tablets to...

Compressed Tablets
