Company Background

Founded in 1948, Follett Corporation is a leading manufacturer of innovative equipment for the healthcare market, including medical-grade refrigerators and freezers, ice and water dispensing equipment, ice machines, and ice storage and transport equipment. Our continuing goal to reach 100% customer satisfaction has resulted in equipment that provides outstanding innovation and design excellence to meet the specific needs of each facility. Our entire company is dedicated to providing the most customer-oriented service in the industry.

Follett occupies over 135,000 square feet of plant and office space in the Lehigh Valley, Pennsylvania. Follett built its own manufacturing facility in Gdansk, Poland in 2005 to support global customer growth.

Our Purpose

To provide innovative solutions that promote health, safety, and well-being.

Product Line Overview

Follett medical-grade refrigerators and freezers maintain correct and consistent temperatures for your valuable medication, vaccines, and other critical products.

■ Follett upright refrigerators feature a powerful top-mounted refrigeration module and innovative back plenum air distribution system for quick temperature pull down and superior temperature consistency to protect your valuable products.

- Custom-designed, modular refrigeration system with microprocessor controller provides a $\pm 1^{\circ}\text{C}$ performance throughout.
- Industry-exclusive plenum air distribution delivers cold air at six different levels.
- Frost-free and auto-condensate evaporation.

■ Full stainless steel cabinet and high quality components designed with the user in mind.

- Stainless steel interior and exterior provide outstanding resistance to rust and corrosion.
- Dished stainless floor contains spills for easy clean-up.

- Heavy-duty dual casters roll easily and lock securely.
- 2.75" of CFC-free foam insulation throughout.
- Heavy-duty glass doors provide ease of use and important energy savings.
 - Full view locking doors with ADA-complaint full length handle.
 - Energy-efficient, dual-pane glass with low-E coating reduces energy loss by 30-50%.
 - Superior glass pack designs remains condensation free to 26 C (80 F) 60% RH, making heated doors unnecessary for most applications (heated doors available as option).
 - Self-closing door locks open at 90 degrees to allow easy product loading.
- Follett's innovative single module design provides outstanding serviceability.
 - Top-mounted modular design allows the entire refrigeration system to be removed as one unit without cutting refrigerant lines. If needed, a spare system can slide into place, virtually eliminating downtime.
- Choice of superior storage options.
 - Industry-exclusive "floating" basket system on pharmacy models.
 - 6 full extension, epoxy-coated "floating" baskets move with a gentle push or pull.
 - Shielded stainless steel bearings and stainless steel S-track design eliminate binding and uneven wear found with loose bearing systems.
 - Baskets and slide assemblies lift out without tools for full cleaning access.
 - 4 heavy-duty epoxy-coated shelves, adjustable in 1/2" (1 cm) increments are standard on laboratory models.
- High-performance countertop refrigerators offer superior temperature performance in space-saving configurations.
 - 1 and 2 cu ft refrigerators fit on standard 24" deep counters.
 - Forced-air cooling and "no heat" off-cycle auto defrost.
 - External digital temperature display in user-selectable F or C with integral high/low alarming and display sleep mode.
- Powerful undercounter refrigerators and freezers are designed for use below standard and lower ADA-compatible counters.
 - Heavy-duty forced air cooling with auto defrost.
 - External digital temperature display in user-selectable F or C with integral high/low alarming and display sleep mode.
 - Keyless entry via keypad and electronic lock option.
