Company Background

CAM Commerce Solutions was founded in 1983. Throughout this time, we continue to develop, market, install, and service highly integrated Multi-Channel Retail Management solutions for pharmacy retailers. These integrated solutions include: point-of-sale, electronic payment processing, inventory management, eCommerce shopping cart, customer management, mobile applications and extensive management reporting. We have a variety of products and services that address the automation needs of the pharmacy industry.

At CAM, we know service and ongoing updates to the software are important considerations in the purchase of a software system. It is important to know that the company behind the product will be around to protect and enhance your investment. CAM has more than 200 employees dedicated to improving our products and serving our customers. We offer phone support, and ongoing program enhancements.

Now, we bring even more experience to our team with Celerant Technology Corporation. Celerant Technology's acquisition of CAM brings to the table 10 years of reputable experience. Regardless of the size of your business, we have a solution for you!

Product Overview

RetailSTARx is a complete multi-channel software solution that interfaces to most pharmacy systems in real-time. Our software gathers signatures for Third Party RX signature logs, HIPAA Notice of Privacy Policy (NOPP) and pseudoephedrine tracking. This all integrates this with our POS system for easy reference, reporting, and auditing.

We meet or exceed all applicable industry standards and regulations.

RetailSTARx's multi-channel management system includes inventory management, customer management and advanced reporting.

RetailSTARx offers a very powerful custom report generator that allows users to create reports that make sense for their unique business – not limited to End of Month/End of Year. In addition to the custom report generator, the system also has dozens of very useful “canned reports” which can be printed or displayed in an easy to read Windows-style format.

You will no longer have to purchase third party tools to get the advanced reporting you require. RetailStar's on-board reporting tools are designed to give pharmacies the flexibility and power they need for managing their retail operations.

Testimonial

“Working on reports using Report Writer is excellent. Creating reports is very easy and every report has worked well. I also love the ordering via EDI! The POS screen is user friendly in RetailStar 9.8 and my sales associates are happy with it.”

— Doug Schultz, Owner of Tobin's
