Pharmacy Design & Casework, Modular Pharmacy Solutions

Pharmacy professionals spend years studying pharmacy. We've spent years studying pharmacists – how they work, the tasks they perform and what they need from their work environment. We bring decades of creative work-flow ideas to each of our projects. Designing and building each to fit your unique space and environment. Our pharmacy fixtures/casework is specially designed for pharmacy, making it work for you.

Company Background

While the name is new our experience is not. We have been designing pharmacies for more than 30 years and manufacturing for more than 90 years. This gives you the confidence of knowing you're working with some of the industry's most knowledgeable, most experienced professionals.

When you want maximum productivity and comfort from your workspace, turn to the team that knows your workspace needs better than anyone – Modular Pharmacy Solutions.

Product Overview

Our modular systems furniture gives you the productivity you need, combined with a high level of comfort for those long hours on the job. Designed with an emphasis on ergonomics, our systems help reduce fatigue so you can stay sharp throughout the day. With a wide range of finish options and color choices, Modular Pharmacy Solutions can deliver a work environment that performs well and you can show with pride.

Features & Options

High quality, pharmacy specific casework is our expertise. We have designed pharmacies all over the world that use our superior modular system that can be reconfigured as your needs change. We can also provide custom products to fit your needs and retain the modular features for future expansion.

Additional Product Modules

We don't stop at furnishings. Our experience in pharmacy related trends put us a step ahead of our competition. One of our most vital products is our experience. When you work with us we bring ideas to the table that have been proven to work for more than 30 years.

Our experience goes even further than pharmacy, design and casework. To enhance your new pharmacy, we offer an array of equipment at competitive prices such as:

- Refrigeration
- Hoods
- Environmental Monitoring
- Modular Cleanrooms
- Seating (Task and Cleanroom)

Additional Product Lines

When USP <Chapter 797> first came out we were not caught off guard. We have been designing and building cleanrooms well before 797 came into existence. We knew your concerns for a optimally designed cleanroom were important then and we know how to get you compliant now. Modular Pharmacy Solutions can provide a turn-key solution to take the headache out of reaching compliance.

Product Specifications

Modular Pharmacy Solutions builds products with the utmost attention to detail. We use durable materials on all surfaces to ensure a long lasting product that meets the 24/7 demand of pharmacy. Every piece of hardware is of the highest quality in the current market. Modular Pharmacy Solutions products are manufactured using the latest state-of-the-art CNC software and machining, thus ensuring superior quality. Trends in the healthcare construction industry are headed towards more green initiatives. MPS participates and can offer points toward LEED certification.

Markets Served

We serve anyone who has the need to store medication and a desire to improve their environment. Collectively, we have designed more than 3,000 pharmacies across the globe. From high volume Department of Defense outpatient pharmacies to the mega hospital inpatient to the small specialty pharmacies that have unique needs.
