## Company Background

Humco Compounding is built on a proud history of more than 140 years manufacturing quality products for the pharmaceutical industry.

Through our innovative spirit and continued investment in research and development, we have established a reputation for creating, developing, and manufacturing a diversified line of non-sterile topical and oral pharmaceutical compounding bases. Our compounding products range from ready-to-use topical creams and gels to oral syrups and suspensions. Our products are designed for the optimal delivery system for a specific formulation based on the desired route of administration and therapeutic intent.

Our compounding bases are tailored to meet your non-sterile compounding needs while reducing compounding preparation time and our goal is to help improve the therapeutic outcome for your patients.

We stand on a foundation of specialized resources and exceptional customer service. We are proud to offer our compounding pharmacists a free Compounding Resource Center staffed by certified pharmacy technicians to provide formulation and technical assistance.

## Product Overview

Designed for all actives and is non-specific to salt, it exhibits superior API carrying capacity (high loads) of multiple actives in formulation. SaltStable LS Advanced™ demonstrates excellent stability without the need to add emulsifiers.

We believe it's the **Most Scientifically Advanced Product** on the Market Today!

## Features & Options

- Increased stability with high percent of APIs & multiple actives.
- Validated in vitro transdermal vehicle up to 8 APIs in one formulation.
- Less sticky & less tacky because of silogel (silicone).
- Off-white, cosmetically elegant cream.
- API compatibility – compatible with all actives.
- Time savings – ready-to-use base, no need for wetting or adding thickening agents.
- Ideal for formulations with multiple actives & high API loads.

## Product Specifications

- **pH:** 7.1-7.5
