Company Background

RxOneShop is an online pharmaceutical price shopping and fulfillment site established in 2005 due to the need of pharmacies needing a more streamlined way to finding the most competitive pricing for generic and brand pharmaceuticals. We service all classes of trade, including but not limited to long-term care, retail, specialty, acute care pharmacies, clinics, and physicians.

RxOneShop leverages all the buying power from the pharmacies we work with. This allows us to negotiate the best possible price from the multiple suppliers we work with. RxOneShop then passes those savings onto every pharmacy. We are dedicated to saving each pharmacy time and money. Everything we do is geared toward getting you better prices and making the ordering process as fast and easy as possible.

Product Overview

For the past ten years, RxOneShop has helped hundreds of pharmacies across the country with all of their pharmaceutical needs.

■ **Next Day Shipping:** Our expansive inventory and network of suppliers gives our clients access to immediate order fulfillment. To receive your supplies in a timely fashion, orders will be prepared the same day if ordered by the cutoff time for free next day shipment on orders meeting a \$150 minimum.

■ **Aggressive Pricing:** Our volume based discount pricing model is geared toward finding you the best market rate for pharmaceuticals. Our software presents specific products in an easy-to-compare format comparing different manufacturers and distributors.

■ **Volume Discounts:** High volume bulk orders adds to our buying power with our distributor network. This win-win strategy using our combined volume enables us to negotiate the best pricing for our customers.

■ **No Own Use Restrictions:** Typically, manufacturers have “own-use clauses” in their agreements which do not permit products to be sold to other customers at these discounted prices. With RxOneShop, there are no “own-use restrictions” and products may be sold to any class of trade.

■ **Online Ordering:** Browse our online catalog now which offers an extensive listing of thousands of products from various manufacturers ready for purchase.

■ **PDMA Compliant:** RxOneShop has excellent partnerships with a multitude of distributors all selected for their quality of service and competitive pricing. All of our suppliers are PDMA compliant as well as VAWD accredited through the NABP.

Features & Options

There are many reasons to choose RxOneShop for your pharmaceutical needs:

- Great Prices
- No Contract
- Easy Online Ordering
- Free Next Day Delivery
- Great Customer Service

Testimonials

“Thank you for all your help over the years you have made my job so much easier. You always saved our pharmacy a lot of money and you have been wonderful to work with.”

— Williams Brothers Pharmacy

“I wanted to say thank you for always being there to help us no matter what day or time it is. I have been able to focus on other projects in the pharmacy because of the work RxOneShop does to save us time and money each and every day.”

— Acipco Medical Group
