### Company Background

Humco Compounding is built on a proud history of more than 140 years manufacturing quality products for the pharmaceutical industry.

Through our innovative spirit and continued investment in research and development, we have established a reputation for creating, developing, and manufacturing a diversified line of non-sterile topical and oral pharmaceutical compounding bases. Our compounding products range from ready-to-use topical creams and gels to oral syrups and suspensions. Our products are designed to provide the optimal delivery system for a specific formulation based on the desired route of administration and therapeutic intent.

Our compounding products are tailored to meet your non-sterile compounding needs while reducing the compounding preparation time and our goal is to help improve the therapeutic outcome for your patients.

We stand on a foundation of specialized resources and exceptional customer service. We are proud to offer our compounding pharmacists a free Compounding Resource Center staffed by certified pharmacy technicians to provide formulation and technical assistance.

### Product Overview

#### ■ Sanare

An elegant, topical anhydrous silicone gel designed for scar therapy treatment and management. It is uniquely formulated with Carapa Guaianensis Seed Oil found in the Amazon rainforest, an exceptional ingredient that promotes skin renewal, inflammation reduction and healing. Added emollients and emulsifiers allow for versatile compounding for scar and other skin conditions.

#### ■ Lavare

A Polyethylene Glycol (PEG) based occlusive, water-soluble gel specifically formulated for wound management by promoting a moist environment allowing for optimal healing. Lavare contains organic Meadowsweet Extract potentially providing germicidal, anti-inflammatory and healing properties along with the ability to deliver APIs topically to sensitive wound sites.
