## Company Background

Acute Care Pharmaceuticals has been servicing the healthcare industry for over 18 years, delivering exceptional products and service to healthcare providers nationwide. We offer a wide range of USP <797> and <800> compliant disposable products that are manufactured under the highest standards.

Our USP <797> compliant product line includes: sterile alcohol, non-shedding wipers, disinfectants, gloves, media test kits, apparel, and more.

Looking towards the future and developing products that exceed your expectations is our number one goal. Our new USP <800> line of products was developed with you in mind, because your safety and the safety of your employees matters. Our USP <800> products include: chemo gowns, chemo gloves, chemo spill mats, goggles, respiratory masks, sterile apparel, and a two-step chemo neutralizing kit.

With 20 GPO and IDN contracts, our goal is to make your buying experience simple and easy. Our Pharma-Choice™ Brand of products are stocked at AmerisourceBergen, Cardinal, and McKesson where you can receive your special discounted contract pricing.

If you want quality products and customer service that you can count on, call us today at 1 (888) 909-7700 for more information and your GPO contracted pricing.

## Product Overview

Acute Care Pharmaceuticals offers a wide range of disinfectants to support the cleanliness of your sterile compounding areas, including: biosafety cabinets (BSCs), compounding aseptic isolators (CAIs), compounding aseptic containment isolators (CACIs), and laminar airflow workbenches (LAFWs), as well as buffer areas, ante-areas, and segregated compounding areas. Cleaning and disinfecting these controlled environments is required to minimize the risk of microbial contamination of CSPs. Acute Care Pharmaceuticals' two best-selling disinfectants include: Pharma-Hol™ Sterile Alcohol and Pharma-D™ Quaternary Ammonium.

Pharma-Hol™ is a validated sterile 70% isopropyl alcohol 30% USP WFI cleaner/disinfectant that comes in 16 and 32 ounce spray bottles and gallon containers. It is the only disinfectant mentioned in the USP <797> regulation. It removes many surface contaminants and can be used for disinfecting gloved hands, vials, counter tops, and more.

Pharma-D Surface Disinfectant™ is an EPA registered, validated sterile, cleaner/disinfectant that is available in 16 ounce RTU spray bottles. Pharma-D™ is a validated sterile quaternary ammonium designed to remove surface contaminants and disinfect hard, non-porous surface areas.

Call today for a full list of alternate disinfectants!
