Company Background

Humco Compounding is built on a proud history of more than 142 years of manufacturing quality products for the pharmaceutical industry.

Through our innovative spirit and continued investment in research and development, we have established a reputation for creating, developing, and manufacturing a diversified line of high-quality, non-sterile, topical and oral pharmaceutical compounding bases. Our compounding bases are tailored to meet the non-sterile needs of compounding pharmacists while reducing the compounding preparation time along with the goal of improving the therapeutic outcome for your patients.

In addition to our innovation, we take pride in our exceptional customer service and our product quality. Our products are developed and manufactured adhering to the highest product quality standards. Humco is an FDA-registered establishment, in compliance with current Good Manufacturing Practices (cGMP).

We are committed to research and development, leading the way in Beyond-Use-Date (BUD) testing, absorption, and transdermal penetration studies. We are continually conducting scientific testing and studies, providing a valuable resource to our compounding pharmacists.

Product Overview

Humco now offers an extensive selection of chemicals that are conveniently packaged in a variety of sizes to effectively accommodate the needs of compounding pharmacists. Humco offers compounding pharmacies everything needed to provide your patients with the highest quality active ingredients. Humco is fully committed to ensuring quality and satisfaction to our customers and to patients through continued research and development and cost leadership in the market.
