Company Background

Freedom Pharmaceuticals provides the highest quality pharmaceutical compounding chemicals available, delivered on a consistent and reliable basis, for a fair and reasonable price. A proven pharmaceutical resource, the Freedom team features well over 100 years of combined experience working in the compounding pharmaceutical industry. Since founded in 2010, our goals have remained the same: supply your compounding pharmacy with the highest quality fine chemicals available and give your staff the personalized customer service you deserve. Built on the belief that customer service and quality chemicals are paramount, Freedom Pharmaceuticals is committed to meeting the ever changing demands of independent compounding pharmacies and their patients.

Product Overview

Freedom Pharmaceuticals specializes in the custom wholesale distribution of premium compounding chemicals – active pharmaceutical ingredients (APIs), excipients and pre-made bases – to independent compounding pharmacies throughout the United States. We are continually expanding our product offering based on our customer's needs. Freedom is a leader in third-party training and consulting. Our customers have direct and immediate access to our team of experts who will provide your pharmacy with the knowledge and guidance necessary to operate successfully in this rapidly changing industry.

■ Third-Party Guidance and Support

CPCSI, a Division of Freedom Pharmaceuticals, is a program designed to teach pharmacies how to correctly submit third-party claims for compounded prescriptions as well as how to survive an audit. Our consultants are trained to educate, guide and assist you and your pharmacy staff with the obstacles of billing third-parties for compounded prescriptions.

■ CPCSI Services & Benefits

- Third-Party Billing Education & Support
- Audit Response Education & Support

- Extensive Membership Benefits
- Quarterly Newsletter
- On-site Training for Audits and Other Services
- CPCSI Advantage (5% Discount on Freedom Chemicals)

■ Comprehensive Pharmacy Support

Freedom Pharmacy Support Services (FPSS) offers comprehensive pharmacy compounding support, providing the knowledge, tools, and counsel needed to make compounding pharmacies prosper.

■ FPSS Services

Extensive online formula database, formulation research and development, application troubleshooting, physical chemistry information, clinical data research, chemical selection, regulatory counsel, equipment/device selection and application, calculation support, marketing support, formulation templates, and technical documents.

■ Quality

Freedom is committed to providing the highest quality fine chemicals, excipients and compounding bases available. Freedom Pharmaceuticals is an FDA registered and inspected supplier. Freedom is also licensed by the DEA and maintains a cGMP compliant facility. We provide high-quality chemicals supplied only by FDA registered and inspected manufacturers that adhere to cGMP standards.

■ Product Assurance Screening System (P.A.S.S.)

- Every item is screened to meet the most current USP/NF/BP/EP/JP or other specifications.
- Each lot is quarantined and subjected to a comprehensive, in-house identification analysis.
- Once the in-house analysis is approved, chemicals are sent to an independent analytical laboratory for further purity verification.
- Each chemical lot is evaluated for color, appearance, solubility and application specific requirements.
- Each Freedom product is sent with lot specific CofAs and MSDS are available upon request.

■ Freedom Bases

Freedom Pharmaceuticals provides high performance, ready to use compounding bases designed to help our clients provide the most state of the art preparations on the market. These bases offer formulation flexibility with stable emulsions, pharmaceutically elegant appearances and lab test functionality. Freedom also offers paraben, dye, gluten, fragrance and petrolatum free base options to meet a vast variety of patient specific needs. Base studies are available for select bases.
