Company Background

Inmar is the largest provider of pharmacy revenue management services in North America. This positions us as an indispensable provider of meaningful business intelligence. Inmar processes more than one billion pharmacy claims each year for more than 21,000 pharmacies of all sizes, enabling effective benchmarking. Our 98% client retention rate reflects how effectively Inmar has helped clients drive profitability, mitigate risk, and improve operational efficiency.

We are experts in efficiently managing the complexities of the claims and payment reconciliation process, offering easy-to-use and implement cloud-based web applications and support that enables the pharmacy business office to focus on exceptions and quickly identify opportunities for collections or operational improvement.

Product Overview

Inmar's Pharmacy Financial Management Suite of web-based applications and services enable efficient, accurate, and compliant pharmacy financial management. With comprehensive reporting, auditing, and liability tracking, we position companies to reduce costs, manage risk, and maximize revenue.

Our solutions for pharmacies and health systems, of all sizes, include: third party claim reconciliation, exception management and patent-pending technology for managing contracts, pharmacy business intelligence, and payer audits.

■ **Pharmacy Reconciliation:** Improves reimbursement, profitability, and payer compliance through claims reconciliation, exception workflow management, and business intelligence solutions.

Inmar simplifies efficient managing of the reconciliation process, providing a comprehensive accounting solution to record pharmacy receivables, post payments, and perform cash applications and GL entries.

■ Key Features of Our Web App

- Interactive, intuitive dashboards providing visibility to weekly trends, carrier trends, and exception management opportunities.
- Reporting wizard enables multiple user defined views, including: Roll Forward Detail, Aging Claims Summary, and Deposit Detail.

■ **Our Clients' Experience:** Reduced write-offs, increased electronic remittance, reduced aging claims balance, improved DSO and service fee visibility, and unparalleled service from a dedicated, experienced team.

■ Rx Recon and Collections Service Designed for Independent Pharmacies

Deep visibility into claims status and remittance data brings you the power to get the information you need to run your business more efficiently and effectively while keeping your focus where you want it — on your patients. Our Collections service also helps you to recover an additional \$25,000 - \$30,000 annually from slow and missing claims payments. We work with all PSAOs, switches, dispensing systems, and wholesalers. Inmar can provide solutions for any combination of vendors that you have today. Our technology and business experts provide the efficiencies our clients need to seamlessly manage their third-party pharmacy reconciliation.

■ Pharmacy Performance Analytics

From contract management, rate analysis, and benchmarking, to price and purchase optimization, our solution allows you to efficiently analyze and model your entire book of business and allow more favorable contract negotiations with carriers.

■ Audit Management

Streamlines payer audit response process, improves results, and enables preemptive risk mitigation through analytics and audit intelligence.

■ PSAO Services

A full range of solutions for Pharmacy Services Administration Organizations including third-party pharmacy reconciliation, contract management, audit management, central pay, and contracting services.

Additional Product Lines

- Pharmaceutical Reverse Logistics: Returns and Recall Solutions
- Workplace Solutions: Floormats, Rx Waste Disposal, RASMAS, Inventory Services
- Healthcare Analytics and Consulting
- Collective Bias: Social Media and Blog Influencer Marketing

Markets Served

We service pharmacies of all sizes including retail chains (national, large, medium, community), independent pharmacies, health systems, long-term care facilities, and retail buying groups.
