Company Background

Founded in 2002 and previously known as Talyst Inc., Verity Solutions provides 340B software and services to hundreds of integrated healthcare systems, acute-care hospitals, pharmacies, and other 340B-eligible covered entities throughout the United States. Verity Solutions is located in Kirkland, WA with remote employees stationed all across the nation to best serve our widespread customer base.

Product Overview

More 340B savings drives us to deliver the most up-to-date platform, written specifically to address the latest HRSA Mega-Guidance. Our product offerings foster compliance, maximize savings, minimize WAC spend, and help you respond to ever-changing regulations. Hundreds of health systems rely on the Verity 340B software platform, which is constantly updated with the latest features and business rules. We deliver comprehensive services to simplify complex challenges and accelerate implementation, where most installs go-live within 90 days. We partner with customers over the long-term to support ongoing compliance and audit readiness. In addition, details about your orders and cost savings are always at your fingertips. Access right when you need it. Verity Solutions products simplify the complex process of maintaining 100% 340B program compliance and results in critical cost savings.
