Company Background

As the innovator of pharmacy as a service, Pack4U provides pharmacy solutions that empower pharmacists to positively impact patient wellness. Our high-tech pharmacy serves only pharmacies. Put our team of business, software, and pharmacy experts to work for you.

Product Overview

■ Pharmacy as a Service

- Our central fill software integrates with your existing pharmacy host system.
- Patient-specific, multi-dose compliance packaging configured for retail and long-term care.
- The latest technology to package and visually inspect prescriptions.
- Speedy implementation can get you up and running in as few as 30 days.

Features & Options

Use Pack4U to innovate, grow, and accelerate your business.

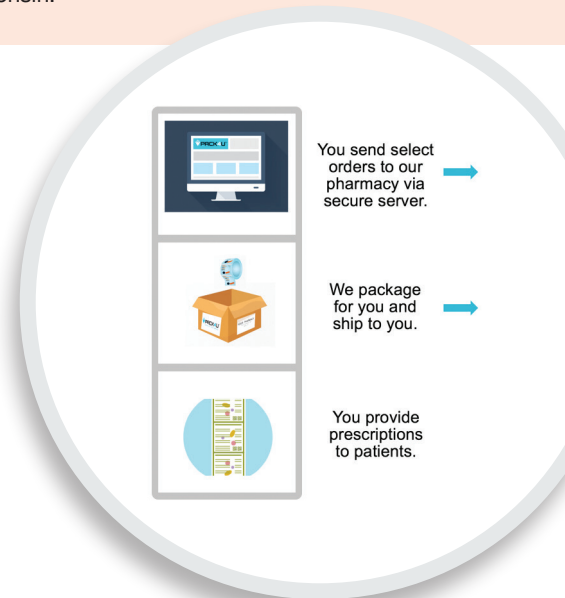

- Get into compliance packaging quickly and cost-effectively.
- Add long-term care services without hiring staff or investing in automation.
- Expand use of automation or establish back-up for automation in use.
- Reduce labor in the pharmacy to focus on patient care and business growth.
- Launch a marketing campaign to land new patients and/or facilities.
- Attract new partners, such as home health.

Packaging: Simple Process

Order medications from your wholesaler, who bills your pharmacy's account and ships to Pack4U the meds to be prepared in compliance packaging.

We use a fully automated process to organize meds in patient-specific packaging by date and time of dose, including visual inspection. We ship finished prescriptions to your pharmacy.

Our cost-effective fee is per patient, per fill. Place your order 3-4 business days in advance of your required in-hand date. Pack4U is licensed to package for pharmacies in 14 states and counting: Alabama, Colorado, Florida, Iowa, Illinois, Indiana, Kansas, Missouri, North Carolina, New Jersey, New York, Pennsylvania, Tennessee, and Wisconsin.
