Identifies the optimal NDC mix for significant savings opportunities. Your purchasing team can make quick and data-driven purchasing decisions creating an average savings of 10-13% of total drug spend.

Testimonial

“We really like Verity 340B. We like that we can see our own data instead of relying on the vendor to send us reports. We also like that the data is real-time and up-to-date. The system is user friendly and simple. It is set up to make it easy for us to complete tasks. We have had a good experience transitioning to Verity 340B because Verity Solutions’ team is phenomenal. Verity Solutions is very supportive. Their people are always ready to answer our questions via phone or email. We have a very good relationship with them.”
