Company Background

Helmer Scientific is a manufacturer and worldwide distributor of medical-grade cold storage and laboratory processing equipment. We have over 35 years of experience in providing high-quality temperature controlled environments, with our products being used in over 100 countries throughout the world. Helmer originated in the blood bank market where precise temperature control is essential to the successful storage and transfusion of blood products. These same principles have been applied to the design and development of the Helmer pharmacy cold storage products.

Product Overview

Having pharmaceutical refrigerators in key locations such as the central pharmacy, satellite pharmacies, clean rooms, and medication rooms enhances workflow and assists in meeting regulations such as USP <797> and USP <800>.

The Helmer Scientific slim-line refrigerator saves on space while providing highly reliable medical-grade cold storage for vaccines and medications. Features of these units include:

- Powerful refrigeration system providing maximum temperature uniformity and quick recovery after door openings.
- The innovative i.C3® Information Center offers advanced temperature monitoring for protection of vaccines.
- Superior cabinet built with high-quality construction.

Designed specifically for the pharmacy, clean rooms, and medication rooms, the Helmer Scientific slim-line refrigerator provides a great solution for areas tight on space.

Features & Options

Helmer Scientific pharmaceutical refrigerators are a result of over 37 years of proven refrigeration solutions and attention to detail. Superior temperature uniformity, outstanding reliability, and exceptional benefits bring value every day, leaving you free to focus on exceptional patient care.

■ Medical-Grade Performance

- Heavy-duty, air-cooled refrigeration system helps exceed industry standards for medical-grade performance.
- Forced-air circulation maintains chamber uniformity and provides quick recovery after door openings.

■ High-Quality Cabinet Construction

- Bacteria-resistant powder coated interior and exterior helps keep units clean.
- Front ventilation allows you to place units under counters and close to walls.

■ Customized Storage Options

- Configure the inside of the cabinet to meet your needs with roll-out baskets, adjustable shelves, or pull-out drawers.

■ Safety and Security of Stored Product

- i.C3® with 7" (177 mm) full-color touchscreen with advanced temperature monitoring, event logging, and data download.
- Key lock or optional access control with password protected settings.
