Company Background

As one of the original companies in the medication synchronization and multi-dose medication adherence packaging market, Medicine-On-Time has spent the last three decades improving patient quality of life through safe, accurate solutions to medication management.

Product Overview

The Medicine-On-Time turn-key system offers proven, scalable medication management solutions that simplify medication regimens, grow pharmacy businesses, and enhance patient outcomes through improved medication adherence. As an industry pioneer with more than thirty years' experience, Medicine-On-Time provides pharmacists with the tools and support necessary to realize their business potential. We serve a wide variety of pharmacy and facility clients and our integrated software, superior multi-dose packaging, robust workstation, and automation options allow them to expand their business and improve patient care.

Testimonials

"If anyone has an adherence program, they need a compliance packaging program. Medicine-On-Time is the most user friendly and cost-effective product on the market."

"Pharmacists can integrate Medicine-On-Time into their workflow and services without making a huge investment, and have an actual piece of equipment to present to these care communities."

"If you manage your workflow correctly, it [Medicine-On-Time] doesn't take any more staff or staff time to accomplish what you need."

"You can increase business without increasing staff."

— Tyler Jenema, Pharm. D. | Peninsula Pharmacy, Marquette, MI
