Company Background

Parata provides pharmacy technology solutions to reduce costs, improve health outcomes, and enhance the patient experience by offering the most comprehensive pharmacy automation portfolio with medication adherence packaging, high-speed robotic dispensing technologies, and pharmacy workflow solutions. Discover how pharmacies across all practice settings use our solutions to stay out in front at parata.com.

Product Overview

■ Improve Medication Adherence

Simplify adherence for your patients and take the guess work out of when they need to take their medications. With a medication adherence program, synchronize daily medications into med pass times improving compliance, outcomes, and readmission rates. Once patients experience the ease and efficiency of adherence packaging, vials and scattered refills are replaced with patient loyalty and long-term revenue. We're proud to offer the most extensive adherence packaging solutions – for both pouch and blister – with inspection and workflow additions to support your growth.

Stand-Out Solutions: ATP® 2, ATP® Mini, ATP® 2 Duo, InspectRx®, Parata Peri® Pouch Inspector

■ Drive Efficiencies to Impact Bottom Line

We're serious about pharmacy efficiency. That's why we've taken best practices and real-world research – with more than a little feedback from pharmacists – to craft cost and space-saving strategies to drive efficiency and impact the bottom line. Your pharmacy's inventory is its largest investment. Why not gain visibility and control of inventory to manage costs and offset increasing expenses of higher drug prices and specialty pharmaceuticals? Our solutions can reduce inventory carrying costs by more than 30% and expired medications by 80% – all while increasing inventory turns. The addition of our inventory management, enterprise software, light-guided high-density storage, and will call solutions allow for greater visibility and can help consolidate your pharmacy's footprint by more than 50%.

Smooth Solutions: Beacon® Inventory Management System, HD Stock™ Workstations and Shelving

■ Enhance Patient Experience and Access

Everybody loves it when you can make things easier for them; patients and

employees are no exception. Expand your reach beyond the pharmacy counter and hours of operation without the traditional overhead costs with WellSpot, our remote prescription pickup locker. Provide 24/7 prescription access for late discharge patients and all shifts of employees. Improve transition of care and help increase script capture – all without increasing your physical pharmacy store hours.

Convenient Solutions: WellSpot™

■ Ensure Safety, Accuracy, and Efficiency

You get the fastest counting technology in the market automating 50-60% of oral solids and helping your team delight customers with timely service and a personal touch. We're proud to offer the premier line of high-speed automation solutions to ensure safety, accuracy, and efficiency in every pharmacy setting. We make it – and make it better – because we're driven to free your time so you can do what you do best – support your patients and lead your team.

Leading Solutions: Parata Max®, Parata Mini®, AccuCount® 2 Scale

■ Optimize Your Operations

Whether big or small, we've got ideas to help you optimize your pharmacy operations. Our experts and industrial engineers can work with you to analyze your pharmacy's specific needs and help you design a workflow using solutions and technology able to scale and grow with your business.

Top-Notch Solution: Parata Centralized Filling Solutions

■ Count On Support

Our customers love our technology, but that's not the only reason they choose us as a partner. Our in-house experts offer a wealth of experience – and we're with you every step of the way. When you choose Parata automation, you have our support from signing the contract through maximizing your technology to grow your business. We have more than 25 years of experience with the best industrial engineers in pharmacy, and we're ready to put that expertise to work by offering pharmacy design services whether it's a new build, remodel, or optimization project.

Helpful Solutions: Parata Performance Services, Parata Consulting

Testimonial

"Beacon has allowed us, both on the quality side and on the financial side, to have a process of continual improvement. We've seen a reduction in dispensing errors. We have confidence in the accuracy of the products we dispense. In addition, we've been able to reduce our formulary size and reduce the inventory we have on hand."

— Jeff Brinkley, Maury Regional Medical Center

Markets Served

Central Fill; Hospital – Inpatient; Hospital – Outpatient; Independent Retail; Long-Term Care; Mail Order; Nutraceuticals; Retail Chain; and Specialty.
