## Company Background

Fagron is the global leader in pharmaceutical compounding, providing customized pharmaceutical care to healthcare providers worldwide. As a fully integrated compounding company, Fagron has significant capabilities in research, development, manufacturing, and distribution. The companies of Fagron offer compounding solutions, innovation, education, customer service, and much more!

## Service Overview

Fagron Sterile Services, a key segment of the Fagron Specialty Pharmacy Services division, is comprised of three FDA-registered 503B outsourcing facilities (Fagron Sterile Services, JCB Laboratories, and AnazaoHealth). With over 35 years of combined experience and state-of-the-art automation, Fagron offers the next generation of high-quality sterile compounding preparations and OR syringes.
