Company Background

SuiteRx is a pharmacy software vendor addressing the needs and challenges presented in the independent and small chain pharmacy market. Although relatively new to the marketplace, SuiteRx Intelligent Pharmacy Software (IPS) has been catering to pharmacies across the country. SuiteRx continuously stays ahead of the competition when it comes to functionality, offerings, and cost. The ability to perform as such is due to the agility, quality employees, and responsiveness that comes with being a smaller organization. SuiteRx has been able to advance along with industry trends to ensure our clients have the tools they need to provide the best experience for their patients and staff. The SuiteRx team continues to learn and grow with their clients to develop a great experience and ultimate software solution. SuiteRx is Empowering Pharmacy Innovation.

Product Overview

Developed by pharmacists, for pharmacists, our IPS program enables independent and small chain pharmacies to use state-of-the-art technology to better meet the needs of their customers and increase speed and accuracy in the pharmacy. With retail, long-term care, specialty, compounding, 340B, and combo versions of the software, IPS is a comprehensive solution, that integrates document management, delivery, POS, inventory management, web portal capabilities, and compounding into one seamless application.

- **Web Portal:** Allows facilities and doctors to request refills and print MARs online. Pharmacists are able to increase patient adherence by enhancing communication between facilities, pharmacists, physicians, and families.
- **Paperless Faxing Functionality:** Cuts down on prescription processing. Electronically send, receive, edit, and link faxes to specific patients and prescriptions.
- **Built-in Cycle Fill Capabilities:** With one mouse click, automatically fill and bill groups of patients on a set schedule (e.g., monthly, weekly).

- **Handheld Mobile Delivery:** Track deliveries and capture signatures with our fully integrated application.
- **Inventory Tracking:** Ability to monitor inventories in real-time and send electronic PO's when drugs reach their specified reorder levels.

Features & Options

- Enhanced Communication for Improved Patient Adherence
- Reduced Workflow Disruption With Easy Edit Ability
- SuiteRx University Online Training Programs
- Mobile Delivery With E-signature Capture
- Advanced Compounding Workflow
- Patient Mobile Application (MRx)
- Business Intelligence Dashboard
- Document Management
- Customizable Reporting
- Insurance Audit Module
- Cycle Fill Management
- Multi-store Capability
- Adherence Reporting
- Shipping Integration

Testimonial

"SuiteRx is the best pharmacy system on the market. The system allows us to cover all bases in one package. Document management, online ordering, electronic and paper MARs, statements, electronic exchange of delivery information, and unlimited reporting options are available at our fingertips. In addition, the system is so easy-to-use, it makes training much easier than it was with our old system. SuiteRx has become the most valuable tool in our toolbox!"

— Paul M. O'Leary, General Manager, Parkview Health Services, LLC
