Johns Hopkins Hospital Neck-Pain and Quality-of-Sleep Study - Proper selection of a pillow can significantly reduce neck pain and improve quality of sleep. (Published in the Archives of Physical Medicine and Rehabilitation - Volume 78.)

Over 4 million people already trust their sleep to Mediflow. **Why?** Because the Mediflow pillow can be adjusted to any desired level of support — soft, medium or firm. Just add or remove water to the base. Perfect for all of your customers. The Mediflow Waterbase® pillow responds to head movement and maintains support. That's why it's so good for sleep and reduces neck pain.
