

The perfect blend of simplicity, reliability and accuracy.

FastFill® 54 – Vial-Filling Innovation

The FastFill 54 is the latest direct-fill technology solution from AmerisourceBergen Technology Group (ABTG). It's modular and can be expanded up to 5 units. The design is slim, smart and efficient - designed to allow flexible layout options for growing community and outpatient pharmacies. The dispensing workflow is simple - the dispensing accuracy is exceptional. That's why we believe it's the perfect blend of simplicity where you want it, reliability when you need it and accuracy you demand from it.
