

# QUALITY

IT'S A BEAUTIFUL THING

**PCCA:  
QUALITY  
CENTRAL**

**Return to sender**  
We reject almost 200 chemical lots per year.

**Eye spy**  
We inspect all products for damage or tampering when they arrive and again in repacking.

**Clean sweep**  
We exceed industry standards in our production rooms to prevent cross-contamination.

**Twice as nice**  
We double-check all testing at every stage of QA/QC.

**Seeing red**  
We use high-tech infrared fingerprint analysis for chemical identification.

**A matter of degree**  
Chemicals are tested only by degreed Chemical Analysts.

**Making the grade**  
Testing also includes:  
Ultraviolet-visible analysis  
Melting point  
Specific gravity  
Solubility

**Match game**  
We match: Certificate of Analysis to current USP standards, manufacturer to our approved list, and product to its repacking label.

**We're Certifiable**  
FDA, DEA, State of Texas  
and Good Manufacturing  
Practices (cGMP)
