CGM = continuous glucose monitoring; MARD = mean absolute relative difference; NDC = national drug code.

<sup>1</sup>MARD is a measure used most often to characterize the performance of CGM systems. The lower the MARD, the closer the CGM readings are to the comparison values.<sup>7</sup>

<sup>†</sup>Adults: 8.2% (vs. 8.9% for FreeStyle Libre 3). Children: 8.1% (vs. 9.4% for FreeStyle Libre 3).

<sup>‡</sup>For those with commercial pharmacy coverage.

#### BRIEF SAFETY STATEMENT

Failure to use the Dexcom G7 Continuous Glucose Monitoring System (G7) and its components according to the instructions for use provided with your device and available at <https://www.dexcom.com/safety-information> and to properly consider all indications, contraindications, warnings, precautions, and cautions in those instructions for use may result in you missing a severe hypoglycemia (low blood glucose) or hyperglycemia (high blood glucose) occurrence and/or making a treatment decision that may result in injury. If your glucose alerts and readings from the G7 do not match symptoms, use a blood glucose meter to make diabetes treatment decisions. Seek medical advice and attention when appropriate, including for any medical emergency.
