

SyrSpend® SF Convenience Packs

Introducing Fagron Hospital Solutions

Fagron offers solutions that add significant value in the treatment of patients with unique needs. Fagron's, just-add-water, convenience packs offer the pharmacist convenient and time-saving solutions. Our convenience packs cover a wide range of treatments from oral suspensions to topical anesthetics. With a global focus on innovation, we are driven to continuously provide pharmacists with the best time-saving solutions in compounding.

Our SyrSpend® SF line of convenience packs offer all the benefits of our best-selling suspending vehicle in a unique, preservative-free option. All of the SyrSpend® SF vehicles are dye-free, sorbitol-free, sugar-free, and alcohol-free, providing acceptability for a wide range of patients. The unique starch-based suspending vehicle uses patented Active Suspending Technology™ to assist in keeping the active pharmaceutical ingredients (APIs) in suspension longer, allowing for more accurate and consistent dosing for the duration of treatment.

Fagron's further development and international growth have resulted in the company becoming the global market leader. Fagron has an active presence in 30 countries in Europe, the Americas, the Middle East, Africa, Asia and the Pacific. Fagron solutions are delivered to 200,000 pharmacists in over 60 countries around the world.

Contact Fagron today, **(800) 423 6967** or **info@fagron.us**, to learn more about our new Fagron hospital solution, SyrSpend® SF Convenience Packs.
