

For over 40 years IMI has manufactured innovative devices that help protect the delivery of drugs within the healthcare system.

INNOVATION

INDUSTRY LEADER IN SECURE DRUG DELIVERY

Also Available for Oral Dispensers:

*IMPORTANT - Oral Tamper Evident Caps are not a universal fit. You must match your Oral Tamper Evident Cap to the dispenser manufacturer.

Our Prep-Lock™ Tamper Evident Cap for I.V. syringes is the industry standard for guarding compounded sterile preparations from unauthorized access, diversion and misuse.

Pharmacists rely on Prep-Lock Tamper Evident Caps for ease of installation while clinicians appreciate the simplicity of removal for drug administration.

The Prep-Lock Tamper Evident Cap for I.V. syringes is available in both low and high volume package configurations with a choice 4 color options.

IMI offers a variety of products that protect drug delivery including I.V., Oral and Enteral devices.
