

Premium Performance BLISTER CARDS

Maximize Automation Performance

Investing in automation to improve efficiency and patient safety is a big step. Taking the next one means using the right supplies to keep it running. Our cards are specifically designed for the complex needs of automation so you can spend less time worrying about downtime and more time with patients and running your business.

DOSIS CARDS & LIDDING

Designed Specifically to Improve Performance in DOSIS System Automation

- Proprietary card + blister combo lays flatter to prevent jamming.
- Rounded corners prevent accidental punctures from other cards.
- In stock and ready to ship same day!
