

# Fagron SyrSpend® SF

## Superior Suspending Technology

Fagron SyrSpend® SF is a total solution that provides you with a convenient and efficient oral liquid dosage form. It uses patented Active Suspending Technology™ holding APIs in suspension longer for more accurate and consistent dosing. Formulated with meticulous attention to detail, no alcohol, parabens, sugars, gluten or dyes, SyrSpend® SF frequently is used for young and old.

### Benefits of SyrSpend® SF include:

- Convenient, all-in-one suspending vehicles for compounding
- Supports adjusted and flexible dosage regimens
- Low osmolality, which minimizes gastrointestinal upset and diarrhea
- Extensive and growing database of scientific references for stability data and beyond-use dating
- Maximum compatibility with APIs
- Ease of administration with a pleasant mouth feel and taste masking
- Pre-weighed kits available to compound suspensions in minutes
