

Fagron Advanced Derma

Leading advanced dermatological care

Perspectives about the safety and tolerance of ingredients in dermatology have changed due to advanced research-driven knowledge. Formulated without harmful, obsolete or controversial ingredients Fagron Advanced Derma Vehicles are designed to comply with the latest scientific advances.

Fagron Advanced Derma is skin friendly and uniquely suited for use on sensitive and vulnerable skin. The gentleness, skin feel and visual appeal of each vehicle

helps to improve patient compliance and quality of life.

All vehicles are developed and scientifically tested to help pharmacists compound stable preparations with a broad range of active pharmaceutical and dermaceutical ingredients.

Contact Fagron to discover how you can offer your patients advanced dermatological care.
