

Community Pharmacy Accreditation: The path to value-based care.

Service specific and scalable, The Compliance Team's Exemplary Provider® accreditation for Community Pharmacy gives independents as well as chains a cost-effective means to validate quality claims across the full spectrum of your business operations and patient care practices.

In addition to being Medicare approved for Part B—DMEPOS, our proprietary operations-based

accreditation process can easily expand to cover compounding, infusion, specialty drug, travel/ retail clinic, long-term care, and telepharmacy services; topped off by Patient-Centered Pharmacy Home™, our program for advanced Rx practices.
