New Technology Platform

Hundreds of health systems rely on the Verity 340B™ products to maintain compliance, maximize savings, and minimize WAC spend. Verity Solutions has a state of the art managed services split billing solution. This web-based solution will keep your organization on the cutting edge of 340B program compliance while maximizing potential 340B savings. This enterprise solution has been designed with responsiveness in mind to quickly react to ever-changing 340B regulations.

This solution also allows for unlimited concurrent users with full or limited access to data and reports. By using our Verity 340B™ managed services split billing solutions, 340B entities can virtualize their inventory, negating the need to maintain costly and space-consuming 340B-dedicated inventory, all while maintaining complete 340B compliance. Key components include:

CLOUD BASED
Most innovative platform in the market. Analytics-driven Dashboards & Reports.

DATA SECURITY
HiTrust certified data center drives HIPAA compliance. Secure product platform. Peace of mind.

BUILT FOR TODAY'S 340B
Flexible, responsive and reliable software platform carefully designed to accommodate the latest regulations.

ENTERPRISE VIEW
Manage/Track user and site activity across locations and relationships. Customized organizational views and access.

PERFORMANCE
System architecture utilized the latest technologies to maintain high performance as data grows.

SIMPLIFICATION
An intuitive, process-centric user interface.

Split Billing | Managed Services | Contract Rx | Specialty Contract Rx | Audit & Compliance | Purchase Analytics | 340B Registration Assistance
