

100% Farm-Family Owned CBD Business

Organically grown in our Kentucky fields and processed in a Kentucky GMP facility using CO2 extraction for the purest CBD possible, our hemp is free of pesticides, heavy metals, and solvents. Every batch is 3rd party tested in an ISO accredited lab. Each bottle is printed with a batch number linking it to the batch specific Certificate of Analysis (COA), which you can locate through our look up tool on our website. The safety and health of your customers is our top priority.

Flavors & Scents

"Wow this tastes amazing!" and "I love this light scent!" are just a couple of comments we hear over and over again. We want your customers to look forward to taking their CBD. Which is why we offer the following delicious flavors and delightful scents.
