Introducing the Next Generation of Pharmacy Automation and Software

Only JFCRx offers a complete suite of pharmacy automation solutions managed through one cloud-based ecosystem, Enlite™. This transformative software turns any number of disparate systems into a single solution – and delivers a higher level of efficiency, analytics, and reporting than available before in the industry.

Learn how your pharmacy can leverage real-time data through "analytics- driven" automation to:

- Improve efficiency and accuracy
- Reduce operational costs
- Enhance patient safety
- Optimize productivity
