PHARMACY MANAGEMENT SYSTEM

NEW MOBILE APPS

FillMyRefills™ App:

Patients can access a web portal from a tablet or smartphone requesting a prescription refill which is automatically uploaded to the PrimeRx refill queue. Pharmacies can now accept refills 24/7.

MobilePOS™ App:

Get Rx pickup signatures and process credit cards through a Bluetooth device. Have the ability to add and update pharmacy inventory.

PrimeDELIVERY App:

Works seamlessly with both PrimeRx™ and PrimePOS™. This allows pharmacies to quickly manage prescriptions generated in PrimeRx™ for delivery and copay collection.

MyPrimeRx Owners App:

Graphical representation of data for Rx, insurance, prescribers, and real-time financial data on your phone.
