

sentry data systems™

raising the bar

on 340B reporting

Introducing Sentry 340B Business

Intelligence™ running on Oracle Analytics. This advanced reporting solution is a central place to build system-wide, multiple-site reports on dispensations, claims and purchasing data — and gain immediate insight into your 340B program performance.

Join us virtually for an interactive demo of Sentry 340B BI™ during the 2021 340B Coalition Summer Conference! For more information or to register, visit www.sentryds.com/raisingthebar.

*One tool shows
your 340B data*

*Data refreshed
