

# The MIC isolators are validated to meet FDA guidance.

## MIC Family of Isolators

Fully validated to meet the FDA's guidance for closed system aseptic processing isolators:

- ▶ Provides for superior airflow in a continuous ISO Class 5 or better compounding zone
- ▶ Validation of transfer of materials and supplies
- ▶ Produces decontamination levels that far exceed standard procedures, producing at a minimum a 4 log reduction with Advanced Aseptic Compounding™ and a 5 log reduction with Automated Advanced Aseptic Compounding™
- ▶ Testing, procedures, protocols that exceed USP standards and state board regulations

MIC Single

MIC Dual
