

# Introducing Scriptmax™, the new pharmacy claims analytics service from Innovatix.

**Scriptmax** offers the most complete pharmacy claim adjudication support in the industry. Convenient Web-portal access with exportable reports means you can access your claims information anytime, anywhere.

Through a comprehensive suite of services, **Scriptmax** empowers pharmacies with actionable claims review data during every step of adjudication.

BUSINESS INTELLIGENCE MADE SIMPLE. **USE YOUR DATA YOUR WAY.**

## PRE-EDIT

Real-time claim validation that maximizes reimbursement and minimizes rejected claims.

Sample pre-edit features include:

- › AWP Verification
- › NDC Updating
- › DAW Code Validation
- › Drug recall
- › Standard dispensing quantity

## POST-EDIT

Timely feedback on submitted claims enables corrections within the post-adjudication window.

Sample post-edit features include:

- › Actionable reports to reduce future claims errors
- › Acceleration of retrospective claims action
- › Margin analysis
- › Contract rate verification

## RECONCILIATION

Automates third-party payment reconciliation and contract rate compliance.

Sample reconciliation features include:

- › Claim-by-claim reconciliation of third-party payments and adjudicated amounts
- › Flag unpaid/underpaid claims and open receivables
- › Track reimbursement rate discrepancies and transaction fees

TURNKEY TECHNOLOGY | COMPETITIVE PRICING OPTIONS | CUSTOMIZABLE EDITS + REPORTS
