

Fast, Safe, Efficient Medication Verification

Introducing FastPak® Verify—An automated universal pouch verification system designed to work with FastPak EXP packaging systems. This new solution enhances patient safety by verifying the contents of barcoded pouches based on expected color, shape and quantity of contents. It also reconciles total number of packages and checks for foreign objects too!

FastPak Verify promotes pharmacy efficiency, reduces staff workload and offers greater control compared to the current manual process. Verification data is also archived to identify trends, review errors and help minimize potential risks to the pharmacy operation.

For more information on how our solutions can help pharmacies and facilities better manage the impact of short cycle dispensing, contact us at **877-781-ABTG (2284)**, e-mail **info@abtg.com** or visit us at **www.ABTG.com**.
