

The HIPAA compliant solution for in-house destruction of confidential patient medical information

Pill Bottles | Blister Packs | Prescription Labels/Paperwork | Optical Media | USB/Flash Media

HIPAA requires that covered entities like pharmacies and health facilities apply appropriate safeguards to protect the privacy of Protected Health Information (PHI) in any form. The Intimus 85 RX multipurpose shredder is the best way for pharmacies, nursing homes, medical practices and other medical facilities to ensure HIPAA Compliance. And because the 85 RX is an in-house solution, the risk of data or identity theft from outsourcing destruction to a third party is eliminated.

- Dual feed slots for paper and pill bottles
- Final particle size is only 3.6 x 43mm
- Destroy up to 200 bottles per hour
- Auto oiler clears adhesives / other residue
- Compact – fits under counters
- Quiet – won't disturb consultations
- Operates on standard 120V power
- Thousands of units in use in the USA
