

# Pharmacy ChargeLink®

By synching your hospital's chargemaster, formulary, and drug purchase history, Pharmacy ChargeLink helps you to address the data gaps that can cause **revenue loss** and **compliance risk**. Pharmacy ChargeLink enables you to proactively identify charge-capture problems, manage compliance risks, create defensible pricing strategies, and perform volume reconciliation to compare units purchased with the volume you've actually billed.

Pharmacy ChargeLink has helped us improve pharmacy revenue, financial performance and compliance.

– Director of Reimbursement Services

From a financial perspective, Pharmacy ChargeLink delivers all the pieces you need and puts them in one place to resolve issues.

– Revenue Integrity Manager

We've all learned how important it is for pharmacy and revenue cycle to have the relationship that we now have – that's what makes us so successful.

– Pharmacy Analyst and Buyer

Applications like Pharmacy ChargeLink and Supplies ChargeLink allow us to marry together data and analyze it simply and effectively.

– Revenue Cycle Integrity Analyst

**Margins are critical to your healthcare mission.** Value-based economics is the movement away from traditional revenue cycle management to understanding the underlying pressures on margin and its impact on patient outcomes. Craneware is uniquely qualified to partner with U.S. healthcare providers to plan, execute, and monitor the success of these emerging initiatives. Learn more at [craneware.com](http://craneware.com)

Chargemaster Toolkit® is ranked No.1 in the Chargemaster Management category for the twelfth year in a row (2006 – 2018) in the "2018 Best in KLAS Awards: Software & Services" report, published January 2018.
