

Smart Solutions to Drive Your Pharmacy's Growth & Patient Satisfaction

PSGA, Inc. is a health care performance improvement company that helps Community Pharmacies incorporate some of the latest and greatest gadgets and software programs to streamline operational revenue, improve customer service, cut costs, and help patients.

BonaRx

Custom Medication Savings Card

Tailored for community pharmacies. Supports ongoing revenue share plus dispensing data from your local market area to help grow your business.

AlereRx

Telemedicine Solution

Helping patients access over 5,000 U.S. based physicians 24/7, from any mobile device, in under 10 minutes or less. Enables pharmacies to provide a cost-effective health care plan for those that are insured, underinsured, or uninsured.

RxReach

Patient Communication System

(2-way SMS, MMS, Voice and Fax)

Educates, informs, and reminds patients in the most efficient and cost-effective way. FastQuoteRx feature facilitates enrolling patients in a Medicare Part D, Medicare Advantage, or Medicare Supplement right at the pharmacy.

TabulaRx

Drug Diversion Software

Next-level drug diversion software solution that monitors the entire supply chain of the pharmacy, starting with the order and ending with the consumption or expiration of the drugs.

RxConnexion

Intelligent Data for Pharmacy

Robust pharmacy software providing business intelligence data and analytical reporting to help grow and manage the pharmacy business. Optimizes profitability and business growth while enhancing Star Ratings performance through elevated medication adherence, refill frequency, and quality performance.

DoorstepRx

All-in-One Delivery Platform

DoorstepRx[®] powered by Workwave is the most affordable all-in-one delivery platform that enables real-time ETA, increases efficiency, and optimizes route planning and management.
