

TEMPERATURE INTELLIGENCE[®]

Increase your temperature intelligence and save valuable medication while helping protect patient outcomes.

TransTracker[®]

Give patients peace-of-mind by using an easy-to-read temperature monitoring device that indicates if a heat, freeze, or dual heat-freeze event has occurred during shipment.

EDGE

Wireless. Connected. Sensors.

Remotely monitor medication storage 24/7 and get real-time notification of temperature excursions. Record and store data in the cloud to automate processes and meet pharmacy board requirements.

Tap into the future of temperature monitoring.

ZEBRA

Temptime[®]
